

PoC Scope: Login, Authorization & Homepage

ACC-01: Log in with email and password	
Page(s)	Login
User Story	<i>As a Member, I want to log in with my email and password so that I can access the homepage and browse the tool catalog.</i>
Acceptance Criteria	1. The "Login" page contains fields "Email" and "Password", and a button "Log in". 2. The "Log in" button is disabled until both fields are filled. 3. Submitting valid credentials redirects the Member to the Homepage. 4. Submitting invalid credentials shows a generic error: "Email or password is incorrect" (no field-specific detail, to avoid account enumeration). 5. A "Forgot password?" link is available below the form and opens a simple request-reset screen (email field and "Send link" button); the rest of the reset flow is out of scope for this PoC beyond that entry point. 6. After 5 consecutive failed attempts, the account is temporarily locked for 15 minutes, with the message: "Too many failed attempts. Try again in 15 minutes." 7. A "Remember me" checkbox is available; when checked, the session stays active for 30 days instead of the default browser-session length.

ACC-02: Register a new account	
Page(s)	Registration
User Story	<i>As a new user, I want to create an account with my email and a password so that I can log in and access the tool catalog.</i>
Acceptance Criteria	1. The "Registration" page contains fields "Full name", "Email", "Password", "Confirm password", and a button "Create account".

	- The “Create account” button is disabled until all fields are filled. - Password must be at least 8 characters and include at least one letter and one number. - If “Password” and “Confirm password” don’t match, an inline error is shown: “Passwords do not match.” - If the email is already registered, an inline error is shown: “An account with this email already exists.” with a link to the Login page. - On successful submission, a new account is created with the role “Member” by default, and the user is redirected to the Homepage, already logged in. - A link “Already have an account? Log in” is available below the form for users who reach Registration by mistake.

HOME-01: Browse the homepage	
Page(s)	Homepage
User Story	<i>As a Member, I want to see the homepage with the full assortment of tools so that I can browse what's available.</i>
Acceptance Criteria	- After login or registration, the Member lands on the Homepage showing a grid of tool cards from the catalog. - Each tool card shows: cover photo (first entry in `photos`), `name`, `category`, and `price_per_day_usd`. - Tools are grouped by `category`, with a category filter row at the top of the page letting the Member view one category at a time or “All”. - Clicking a tool card opens a read-only Tool details view showing `description`, all photos, price, `condition`, and `brand_model`. - A tool with `status` = “Under maintenance” or “Retired” is shown with a grayed-out card and a “Currently unavailable” label, rather than being hidden. - A search field at the top of the Homepage filters the visible tool cards by name as the Member

	types. 7. No reservation, booking, or waitlist action is present anywhere on this page or the Tool details view — browsing only, per PoC scope.
